

Centre for Flexible Accredited Meaningful Engagement

We are taking enrolments for 2016 now

FAME has recently been recognised as SA's first Special Assistance School (RE-ENGAGEMENT).

Who is FAME for ?

FAME Flexible Learning Centre has been established to meet the needs of young people between the ages of 13-19 years old... who are *at risk*.

Flexible Learning Plans

FAME places a strong emphasis on working alongside young people to help them establish what their hopes are for their future. The staff aim to assist each individual with the expression of their educational, vocational and social goals. These goals are reviewed with the young person periodically so they can actively monitor their own progress.

FAME's key focus areas

In our experience, there are three key reasons at the heart of why a young person may disengage from mainstream schooling:

EDUCATION: difficulties with school work (particularly numeracy or literacy) or an inability to function well within an institutional school setting (ie. lack of interest in the educational content; social isolation from bullying).

PSYCHO-SOCIAL: wellbeing issues as a result of family dysfunction or the condition of their social environment (ie. poverty, unemployment).

VOCATIONAL: difficulties in aiming for, and engaging with, employment opportunities and a future career.

Our Principles:

- The uniqueness of each person
- The worth & dignity of each person
- The right of each person to achieve their highest potential

Our Values:

- Respect
- Honesty
- Empathy
- Tolerance
- Safe & Legal
- Participation
